## Typical Nutrition Values

Product	% CP	% Fibre	% Fat	% Salt
Rabbit Pellets	17	10	5.0	1.0

*Specifications on Dry Maker Basis*

## Features and Benefits

- Ingredients are carefully selected to give the correct intake of protein, amino acids, energy, fibre, minerals and vitamins.
- Weston Animal Nutrition Rabbit Pellets are formulated to maximise the performance of either meat or fur production systems, but also suited to feeding to pet rabbits.

## Feeding recommendations

- Always ensure quality roughage is made available to assist in the prevention of digestive upsets.
- Clean fresh water should be available at all times

Available in 10kg or 25kg bags.

Animal	Recommendations
Growing Rabbits	Feed to appetite
Bucks and Pregnant Does	80 - 115g/day
Does in Late pregnancy & Lactation	Feed to appetite 200 - 400g/day
